1. Significant new factors

Due to the published ad-hoc announcement from 9 November 2012 the Issuer has become aware of significant new factors which are capable of affecting the assessment of the Notes. The following changes are made to the Prospectus:

1.1. Description of the Issuer – 3.3 RECENT DEVELOPMENTS

On page 54 of the Prospectus the following paragraph is inserted before the subheading “3.4 RATING”:

“3.3.3 VBAG expects negative result in single entity accounts for 2012 / no interest payments on supplementary capital until 2015 (for the year 2014)

On 9 November 2012, the Management Board of VBAG announced that the single entity result (according to local GAAP) will be negative within a clearly double-digit million euro bandwidth.

Due to different accounting rules between the single entity accounts (local GAAP) and the consolidated group accounts (IFRS), the latter will show a triple-digit million euro profit. Mainly responsible for the difference between the single entity result (local GAAP) and the IFRS result is the different accounting treatment and timely realization of the capital reduction on the participation capital issue 2008.

Due to the expected difficult economic environment and the resulting deductions on the run-down portfolio, interest payments on Supplementary Capital Notes should not be expected for the years 2013 and 2014.”
